consultation over the long distance telephone between Presidents Kline and Ryan of the car men; Franklin of the boiler makers, at Kansas City; and O'Connell, of the machinists at Davenport. As soon as the day and hour was settled the following message was dispatched to all the unions affected:

"All efforts have failed. Mr. Kruttschnitt refuses. All crafts will strike Saturday, September 30 at ten in the morning. Letter of instructions follows. Let every man do his duty." The chief shops to be affected are at Kansas City, Omaha, North Platte, Neb., Cheyenne, Ogden, Salt Lake, Portland and Portland, Oregon; Seattle, San Francisco, Sacramento, Rakersfield, San Luis Obispo, Los Angeles, Las Vegas, Nevada; Tucson, El Paso, San Antonio, Houston, New Orleans, Beaumont, McComb, Vicksburg, Memphis, East St. Louis, Illinois; Centralia, Matson, Clinton, Illinois; Chicago and Denver.

The strike will not affect the train schedules, according to C. H. Markham, president of the Illinois Central. The clerks' strike has spread to the freight handlers at New Orleans, where 100 walked out. Three strikers and sympathizers have been arrested for alleged violation of the federal injunction preventing interference in any way with handling interstate freight. Firemen of Georgia and Florida are out because wage increases were not granted.

LAS VEGAS, Nevada, Sept. 29.—It is reported here that the local shopmen of the Salt Lake railroad have been ordered to strike at ten tomorrow morning. The company is making preparations to fill positions so that the train service will not be interrupted. Probably fifty men have arrived here. A carload of provisions has been brought in and installed in the yards which surround the stockade. It is quiet tonight. Union leaders state that they are forced into their present position.

RENO, Nev., Sept. 29.—Telegraphic communication ordering a strike at ten a. m. tomorrow, was received by heads of the local railroad crafts unions today. Approximately 800 men are expected to obey the order.

TUCSON, Sept. 29.—Employees of the Southern Pacific are in readiness to strike on receipt of the official order. Two hundred and twenty men will be affected. The road hopes to retain most of its helpers. All are not union men employed in the shops. Shops, roundhouse fenced, well lighted, 25 extra policemen were sworn in. No trouble is expected.

THUNDER OF GUNS

mediately and notification of this act will be sent to all neutral powers. The trouble which culminated in a declaration of war dates back to 1878 when with the making of a treaty concluding the Russo-Turkish war, the powers are understood to have agreed to permit Italy to have a pacific penetration of Tripoli. Turkey claims that this right is not respected, but that Italy colonized Tripoli until her interests there are very extensive. Italy asserted that her subjects have been mistreated by the Ottoman authorities and discriminated against.

CONSTANTINOPLE, Sept. 29.—The

Turkish government today sent a conciliatory reply to the Italian ultimatum demanding that no resistance be made to Italy's proposed occupation of Tripoli and Cyrene.

The note is couched in friendly terms and expressed surprise at the action of Italy in view of the cordial relations between the countries. It is pointed out that Italian interests in Tripoli are not threatened and expressed the hope that Italy would desist from her contemplated measures. Assurance is given of Turkey's desire for a settlement. It is also stated that Italian subjects in Turkey are in no danger.

CHIASO, Switzerland, Sept. 29.—Despatches from the principal Italian cities tell of much enthusiasm over the expedition to Tripoli. The regiments composing the expedition are now mobilizing at various ports. All officers have volunteered for service and those to take part will be chosen by lot. The Italian fleet will occupy the whole coast of Tripoli and Derna. The military expedition will be dispatched as rapidly as possible and it is expected the fleet will complete the occupation by tomorrow. Italian newspapers generally approve the action of the government.

DENIALS ARE NOT ACCEPTED AT PAR

Globe People Persist in Believing a Big Copper Merger Is Likely to Occur.

Despite the denials of J. B. Ryan and W. E. Corey of any significance of their trip as to a possible copper merger, there are persistent rumors filtering in from New York, Duluth and other points to the effect that a contemplated merger is on, says the Globe Democrat. Whether it includes only the Inspiration and Live Oak, or extends to several Arizona copper companies, cannot yet be learned, but it has been learned upon excellent authority that Edmund De Lestry of Duluth, vice president of the mining congress, says a merger is in progress by a Rothschild company formed in London.

Before Corey left Europe about three months ago a statement was made that he intended to form an American copper merger upon the general lines of United States Steel. When asked about the matter here by a Silver Belt representative, both Ryan and Corey scoffed at the statement, saying that an attempt at such a merger at this time would be little short of lunacy.

Another report that followed the capitalists to this district was to the effect that Corey had come here as a mediator between the Guggenheims and the Coto-Ryan interests, with hope of effecting consolidation of the two properties. This they also denied when questioned by a representative of this paper.

SUSPECTED MURDERER IS STILL AT LARGE

The coroner's jury which has been investigating into the cause of the death of Nabor Gutierrez, who was shot and killed last Monday night, convened yesterday at the office of Coroner H. H. Pratt and several witnesses were examined after which they rendered a verdict that "the deceased came to his death as a result of gun shot wounds inflicted at the hands of a person or persons unknown," says the Silver Belt.

The witnesses examined could cast but little light on the killing. The man suspected of having committed the murder is still at large although every effort is being made by the authorities to locate him. The suspected man's brother is still being held in custody.

AMUSEMENTS

THE COLISEUM.

Weather or no weather there will be a change in the vaudeville program and picture plays tonight. The acts will be varied and some special musical features added. While the management has done the best possible to secure good weather, that which comes is the best obtainable. Weather is like talent—sometimes you get more of some kinds that you don't want and less of some kinds that you do want, and sometimes when you get what you think you want it is not "it." But weather or no, the management of the Coliseum is not playing second fiddle to the patrons. The bill is as good as it is and the pictures are especially good.

THE SAVOY

Considering the weather, a good crowd witnessed the new program shown last night. The same bill will be repeated tonight. Not in

many weeks has there been a better program at the Savoy.

The new program of music is up to the standard and proves to be one of the features.

"Man to Man," is a picture portraying some of the bad men of the west, also showing some of the good qualities they possess. The story shows an outlaw who is warned by a friend, of the sheriff being close on his trail. The outlaw takes to the woods but is overtaken by the pursuer, is captured, handcuffed and returning they are caught by a band of Indians. The prisoner is freed from handcuffs and succeeds in overpowering his rivals but proves to the sheriff that even he is his equal. He allows the sheriff to again handcuff him and bring him back.

Other pictures are, "The Blind Princess and the Poet," "For He's a Jolly Good Fellow," "The Academy Girl."

SUDDEN DEATH OF REV. DANIEL BATTIN

Succumbed to Pneumonia, in San Diego, Last Tuesday.

A letter has been received by relatives in Phoenix, giving the details of the last illness and death of Rev. Daniel Battin, which occurred very suddenly Tuesday morning, in San Diego. His home was in Los Angeles for six months past, but a few days ago he went to San Diego for a visit with friends, was taken ill of pneumonia which proved fatal in a very short time. He had no living children but is survived by his wife, both having been residents of Phoenix for twenty years and having a wide circle of friends here, who will sympathize deeply with Mrs. Battin in her bereavement. Deceased was a brother of Dr. W. H. Battin who with his family resides in Phoenix.

Rev. Daniel Battin was 69 years of age and came to Phoenix in 1887 from the east, being then a minister of the Methodist Episcopal church, and joining this conference he was for some time the pastor of the First M. E. church of this city. Some years later he left the ministry and engaged in business here until about four years ago when he moved to San Diego. That was his home until about six months ago when he moved to Los Angeles.

Finances and Markets

NEW YORK, Sept. 29.—The normal recovery of prices which characterized yesterday's dealings were again to the fore today. An extensive short interest was the pivot around which the market centered, covering by that element constituting the most important factor. The Italian declaration of war against Turkey later brought a reaction. In face of the foreign advance, the market rose at the opening. United States Steel touched the high point of the week at 62. After the war bulletin was announced, the gains turned, in some cases the losses gaining 1 to 3 points. Trading in tobacco securities continued on a large scale. On the curb,

common stock jumped fourteen points. Canadian Pacific showed a net increase but curiously enough it was weakest among the railroad stocks. Erie, Rock Island and Reading reported small net earnings. Bonds were active. Total sales, par value, \$3,420,000. Governments unchanged on call.
